

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-6 (Canceled).

Claim 7 (Currently Amended): A basic medicine-containing preparation comprising a basic physiologically active substance, one or more enteric polymers having acidic residues in the molecule thereof, and one or more electrolytes selected from the group consisting of an alkali metal salt and an alkaline earth metal salt.

Claim 8 (Canceled).

Claim 9 (Original): The basic medicine-containing preparation according to claim 7, wherein the physiologically active substance is tamsulosin hydrochloride.

Claim 10 (Canceled).

Claim 11 (Currently Amended): The basic medicine-containing preparation according to claim 7, consisting of multilayers ~~containing~~ comprising at least a central layer, an inside layer and an outside layer, wherein: the inside layer comprises the physiologically active substance and the enteric polymer; the outside layer comprises the enteric polymer as main component; and the one or more electrolytes are ~~comprises~~ comprised in at least any one of the layers.

Claim 12 (Canceled).

Claim 13 (Currently Amended): The basic medicine-containing preparation according to claim 9, consisting of multilayers ~~containing~~ comprising at least a central layer, an inside layer and an outside layer, wherein: the inside layer comprises the ~~physiologically active substance~~ tamsulosin hydrochloride and the enteric polymer; the outside layer comprises the enteric polymer as main component; and the one or more electrolytes are ~~comprises~~ comprised in at least any one of the layers.

Claims 14-18 (Canceled).

Claim 19 (Currently Amended): A capsular preparation, ~~wherein comprising the~~ basic medicine-containing preparation according to claim 7 ~~is charged into~~ in a capsule.

Claim 20 (Currently Amended): A capsular preparation, ~~wherein comprising the~~ basic medicine-containing preparation according to claim 11 in 14 ~~is charged into~~ a capsule.

Claim 21 (Canceled).

Claim 22 (New): The basic medicine-containing preparation according to claim 7, wherein the one or more electrolytes are selected from the group consisting of sodium chloride, potassium chloride, magnesium chloride and calcium chloride.

Claim 23 (New): The basic medicine-containing preparation according to claim 7, wherein the one or more enteric polymers are selected from the group consisting of hydroxypropylmethyl cellulose phthalate, hydroxypropylmethyl cellulose acetate succinate, carboxymethylethyl cellulose, cellulose acetate phthalate, methacrylic acid / methyl methacrylate copolymer, methacrylic acid / butyl acrylate copolymer, methacrylic acid / ethyl acrylate copolymer, and polyvinyl acetate phthalate.

Claim 24 (New): A basic medicine-containing preparation comprising tamsulosin hydrochloride, methacrylic acid / ethyl acrylate copolymer, and sodium chloride.

Claim 25 (New): A basic medicine-containing preparation comprising tamsulosin hydrochloride, hydroxypropylmethyl cellulose phthalate, and calcium chloride.
